"Simple to implement, connects easily with my accounting software and it streamlines my job costing processes at the end of the month. Don't wait any longer, integrate now!"

LINDA HERRON ★★★★★

"We use the timers to track employee time so we can bill our clients. Because of the team approval workflow we're able to ensure the billable hours are correctly recorded and approved before the invoice is generated. It's easy to use, syncs nicely with my accounting software and saves heaps of time from the old timesheet system!"
